

# Your drinking water pure as Nature Intended!

**'Freshwater Filters' - The perfect complement to Gramma's Herbal Teas.**

**Enjoy fresh, pure water today! The perfect complement to Gramma's Herbal Teas and your healthy lifestyle!**

**Is your tap water unfit  
for human  
consumption?**

Today's tap water is much more than just H<sub>2</sub>O. Contaminants are picked up as water passes through the hydrological cycle and some even more worrying chemicals like the chlorine that are purposefully added by the water boards. Ingesting these chemicals in your drinking water has been linked to cancer, heart diseases and other illnesses.

### **The ultimate health drink!**

Our FW1000 filtration system removes harmful contaminants whilst retaining minerals essential for good health. Whether on its own or mixed with drinks, or to make tea or coffee, you can really taste the goodness!

FW1000 purifier is easy to fit, but if you prefer, we can fit it for you at ½ price saving £38.19. If you do not require any fitting services, we will give you a **15% discount** reducing the normal price of £249.49 to £224.54 + £9.40 p&p.

**'Our products are recommended by Doune Alexander of Gramma's and Patrick Holford of Health Product for Life'.**

### **Benefits of FW1000**

- Removes pollutants
- Retains healthful minerals
- Pure fresh water on demand
- Cost effective to run, durable stainless steel housing with 10 years guarantee.
- Convenient, economical alternative to bottled water
- Peace of mind for a lifetime.
